1. The T-34 tanks presently manufactured in Yugoslavia are composed of engine and parts cannibalized from Sherman tanks and placed on a T-34 chassis. Armament consists of one German 88 mm. all-purpose gun, two 50 mm. machine guns and one 30 mm. anti-aircraft or so-called close defense gun.
2. It is reported that only four of these tanks have been built. They are said to be at present utilized for propaganda purposes. There is no evidence that large-scale production of these tanks has yet begun.

Comment: Efforts are being made to secure additional and more detailed information on this type of tank.
